## **Tips for successful configuration**

Configuration in MyGeotab - On-board camera - GoSight

Note the camera serial number printed on the box. You'll need this serial number to associate the camera to the vehicle in MyGeotab.

		Accident Reconstruction	Groups filter	Al groups selected					
	8	AttriX services V Finder	Save Import B	Install map add in Cancel					
	⊕	Authority Switcher Config	न्टे SIG	[•]T

		2)	Apply changes

Make a custom request - On-board camera - GoSight (Continued)

5 - On the right, you'll see recorded videos, if any, and pending requests. Select the vehicle to continue.

Options   Custom request Cameras Rules	3		
GC SIG[+]T			
<u>4 devices</u> are not assigned to a vehicle			
• <u>3 devices</u> are not reporting any data			
1 devices have no SD cards inserted			
NAME \$	VIDEOS \$	SEVERITY SCORE \$	HIGHEST SEVERITY \$
3897 0 video	3 pending		
3906 21 videos	0 pending	4	1

6 - View the recording by selecting the one you want. If your video is loading, please wait a few minutes and then refresh your screen.

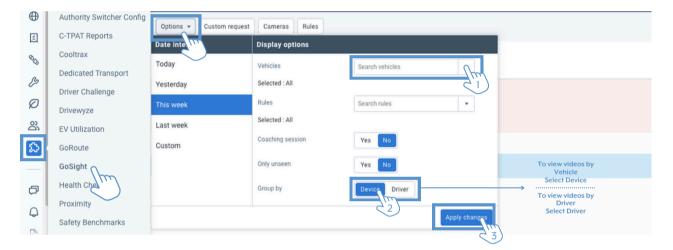

The videos are downloaded to the "Cloud" when the ignition is turned off. If you cannot find a video, stop the vehicle for a few minutes.

View event videos - On-board camera - GoSight

1 - Navigate to the GoSight tab on the MyGeotab platform and click on "Options." Then, proceed with the following steps:

- 1.1. Select the relevant rules.
- 1.2. Choose either vehicles or drivers.
- 1.3. Click "Apply changes."

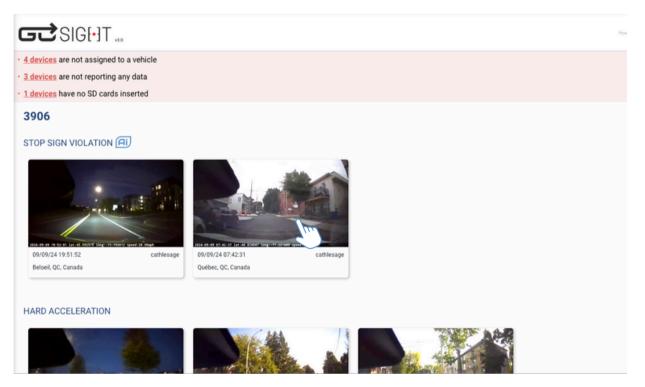

2 - Click on a vehicle to display the associated videos. The total number of available videos, as well as those pending, will be shown. The videos will be sorted by vehicle or driver. You can also organize them by name (device or driver), number of videos, severity score, or maximum severity. The severity levels can be set in the rules tab by selecting a score from 0 to 4 for each rule.

View event videos - On-board camera - GoSight (Continued)

3 - Select the video you wish to view by pressing on it. The videos are organized by event type.

4 - Watch the video. You have the option to share it, download it, or submit it for a coaching session. You can also add comments, with the option to make them private if needed.

## **Event report**

#### Generate an event report

1 - To generate an event report, go to the MyGeotab platform, then click on the GoSight tab. In "Options":

- 1.1. Select vehicles or drivers
- 1.2. Select rules
- 1.3. Press "Device" or "Driver".
- 1.4. Press Apply changes.

## **GOSIGHT HEALTH REPORT ANALYSIS**

#### GoSight Health Report Diagnostic Guide

Description of the Health Report information :

#### Boot Complete Timestamp

Corresponds to the activation of ignition during the last trip.

#### Boot Cycle Triggered By App

Application-triggered reboot.

#### **Device Shutdown Timestamp**

Signals a system restart following an update.

#### Time Taken to Get GPS Sync After Ignition

Time taken for the camera to receive the first longitude and latitude coordinates.

#### **Ignition ON Timestamp**

Last moment the truck was started.

#### **Ignition OFF Timestamp**

Last moment when the truck was stopped.

Battery Health Current state of the camera's external battery.

### **GPS Low Frequency**

Situation where GPS signal is weak or lost.

#### **Power Cut Alert**

The state in which the camera stops receiving power, typically out of standby mode, often during an update or disconnection.

#### **G-Sensor Malfunction**

Camera unable to detect gravitational force. Not applicable to GoSight. It uses the GO9 modem for this data.

#### **Internal Storage**

Space used by the system in the camera, with a margin for cases where the SD card is not read.

#### **External storage**

Space used by on SD card.

#### **DVR Write Percentage**

Indicates the percentage of frames successfully written (value must be > 90%) This is updated when the vehicle has been driven for at least 8 hours or once every 3 days.

#### **SD Card Status**

Confirmation of correct SD card insertion.

#### **Camera Mounting Status**

Information on camera positioning and possible road viewing problems.

#### **Camera Sensor Reboot**

Last automatic calibration performed by the camera.

## **GOSIGHT HEALTH REPORT ANALYSIS**
